1. The Amendment filed March 9, 2005 in response to the Office Action of December 9, 2004 is acknowledged and has been entered. Previously pending claim 5 has been amended. Claim 5 is currently being examined.

2. In view of the newly amended claim 5, restriction to one of the following inventions is required under 35 U.S.C. § 121:

Group 1. Claim 5 is drawn to a polypeptide comprising SEQ ID NO:3, classified in Class 530, subclass 350.

Group 2. Claim 5 is drawn to a polypeptide comprising SEQ ID NO:5, classified in Class 530, subclass 350.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions 1 and 2 as disclosed are biologically and chemically distinct, made by and used in different methods and are therefore distinct inventions.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103, the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 C.F.R. 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C.

103.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).

7. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan Ungar, PhD whose telephone number is (571) 272-0837. The examiner can normally be reached on Monday through Friday from 7:30am to 4pm.
